Grow, Gather & Share

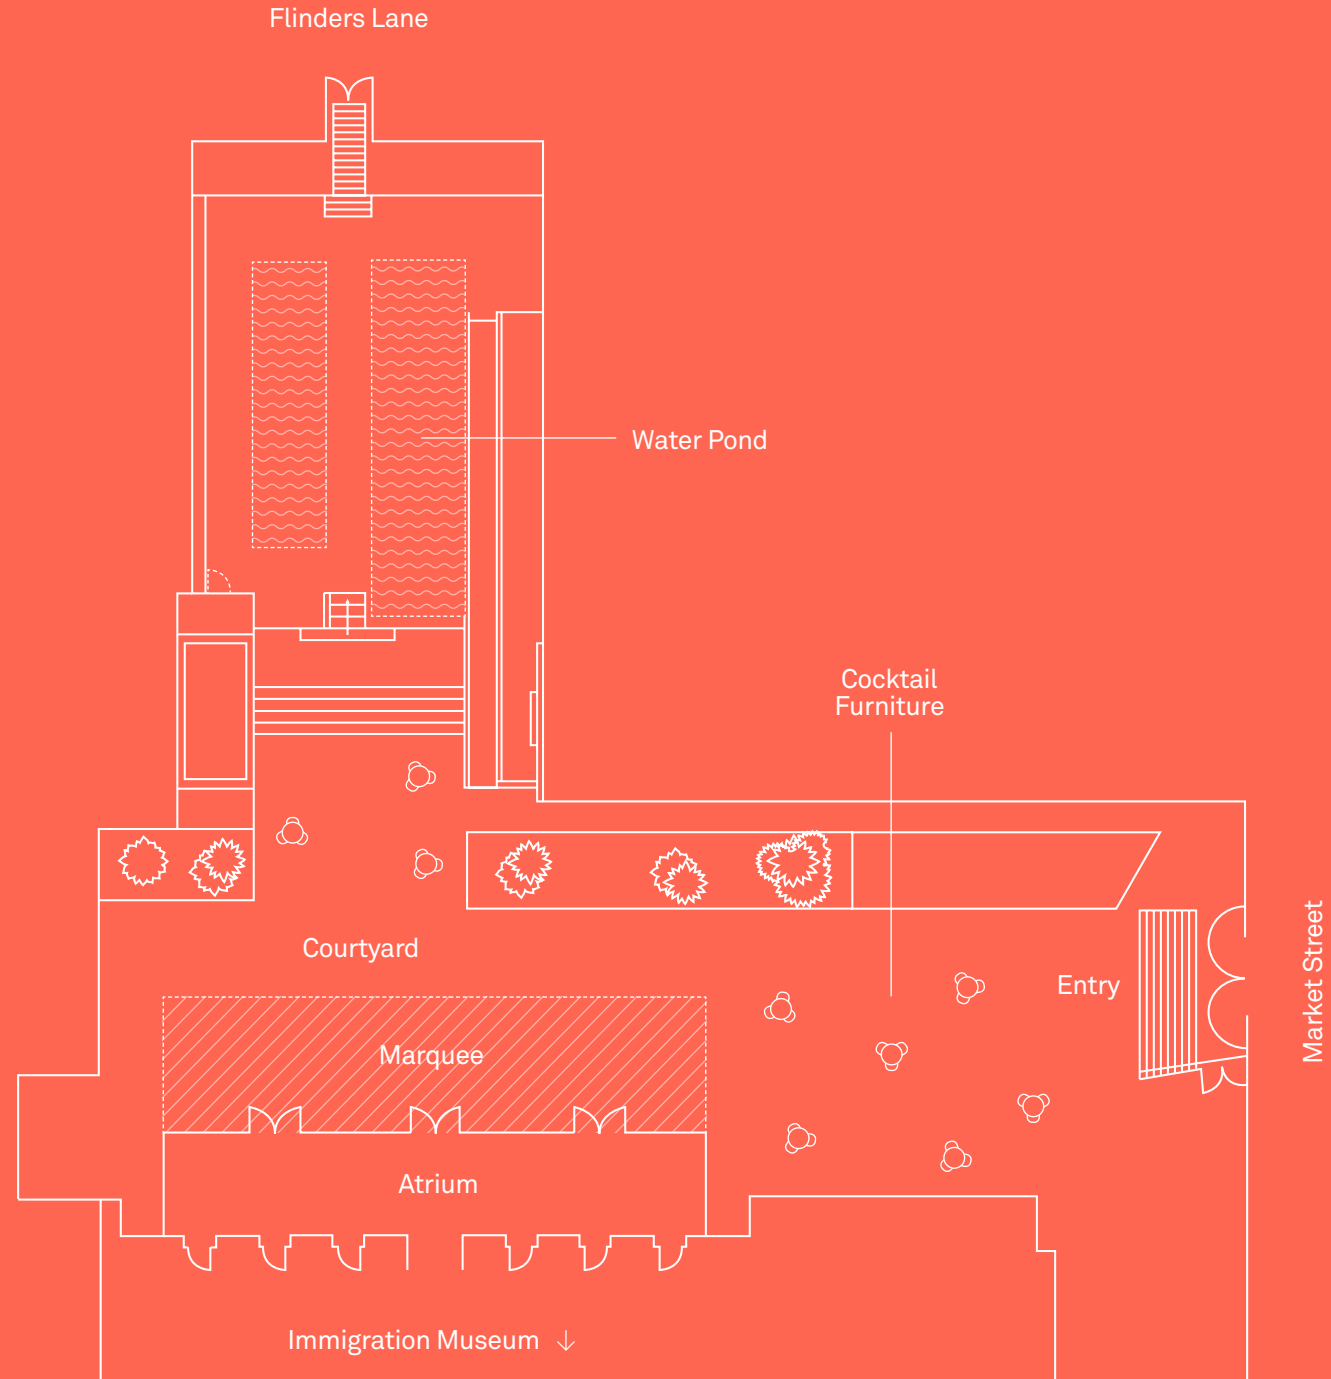

The Grow, Gather & Share exhibition is a celebration of the diversity and history of gardening and food in Australia. In Grow, Gather & Share, we not only cultivate the plants, but nurture understanding of different cultures.

When we gather, we not only harvest our crops but come together as a community. When we share our food, we also share stories and create connections that foster inclusive and welcoming societies.

Planter boxes flowing with scented herbs, and aromatic leaves will adorn Nine Below with guests welcome to explore the story of Grow, Gather & Share through touch, taste and scent.
