MUCHO

About Us.

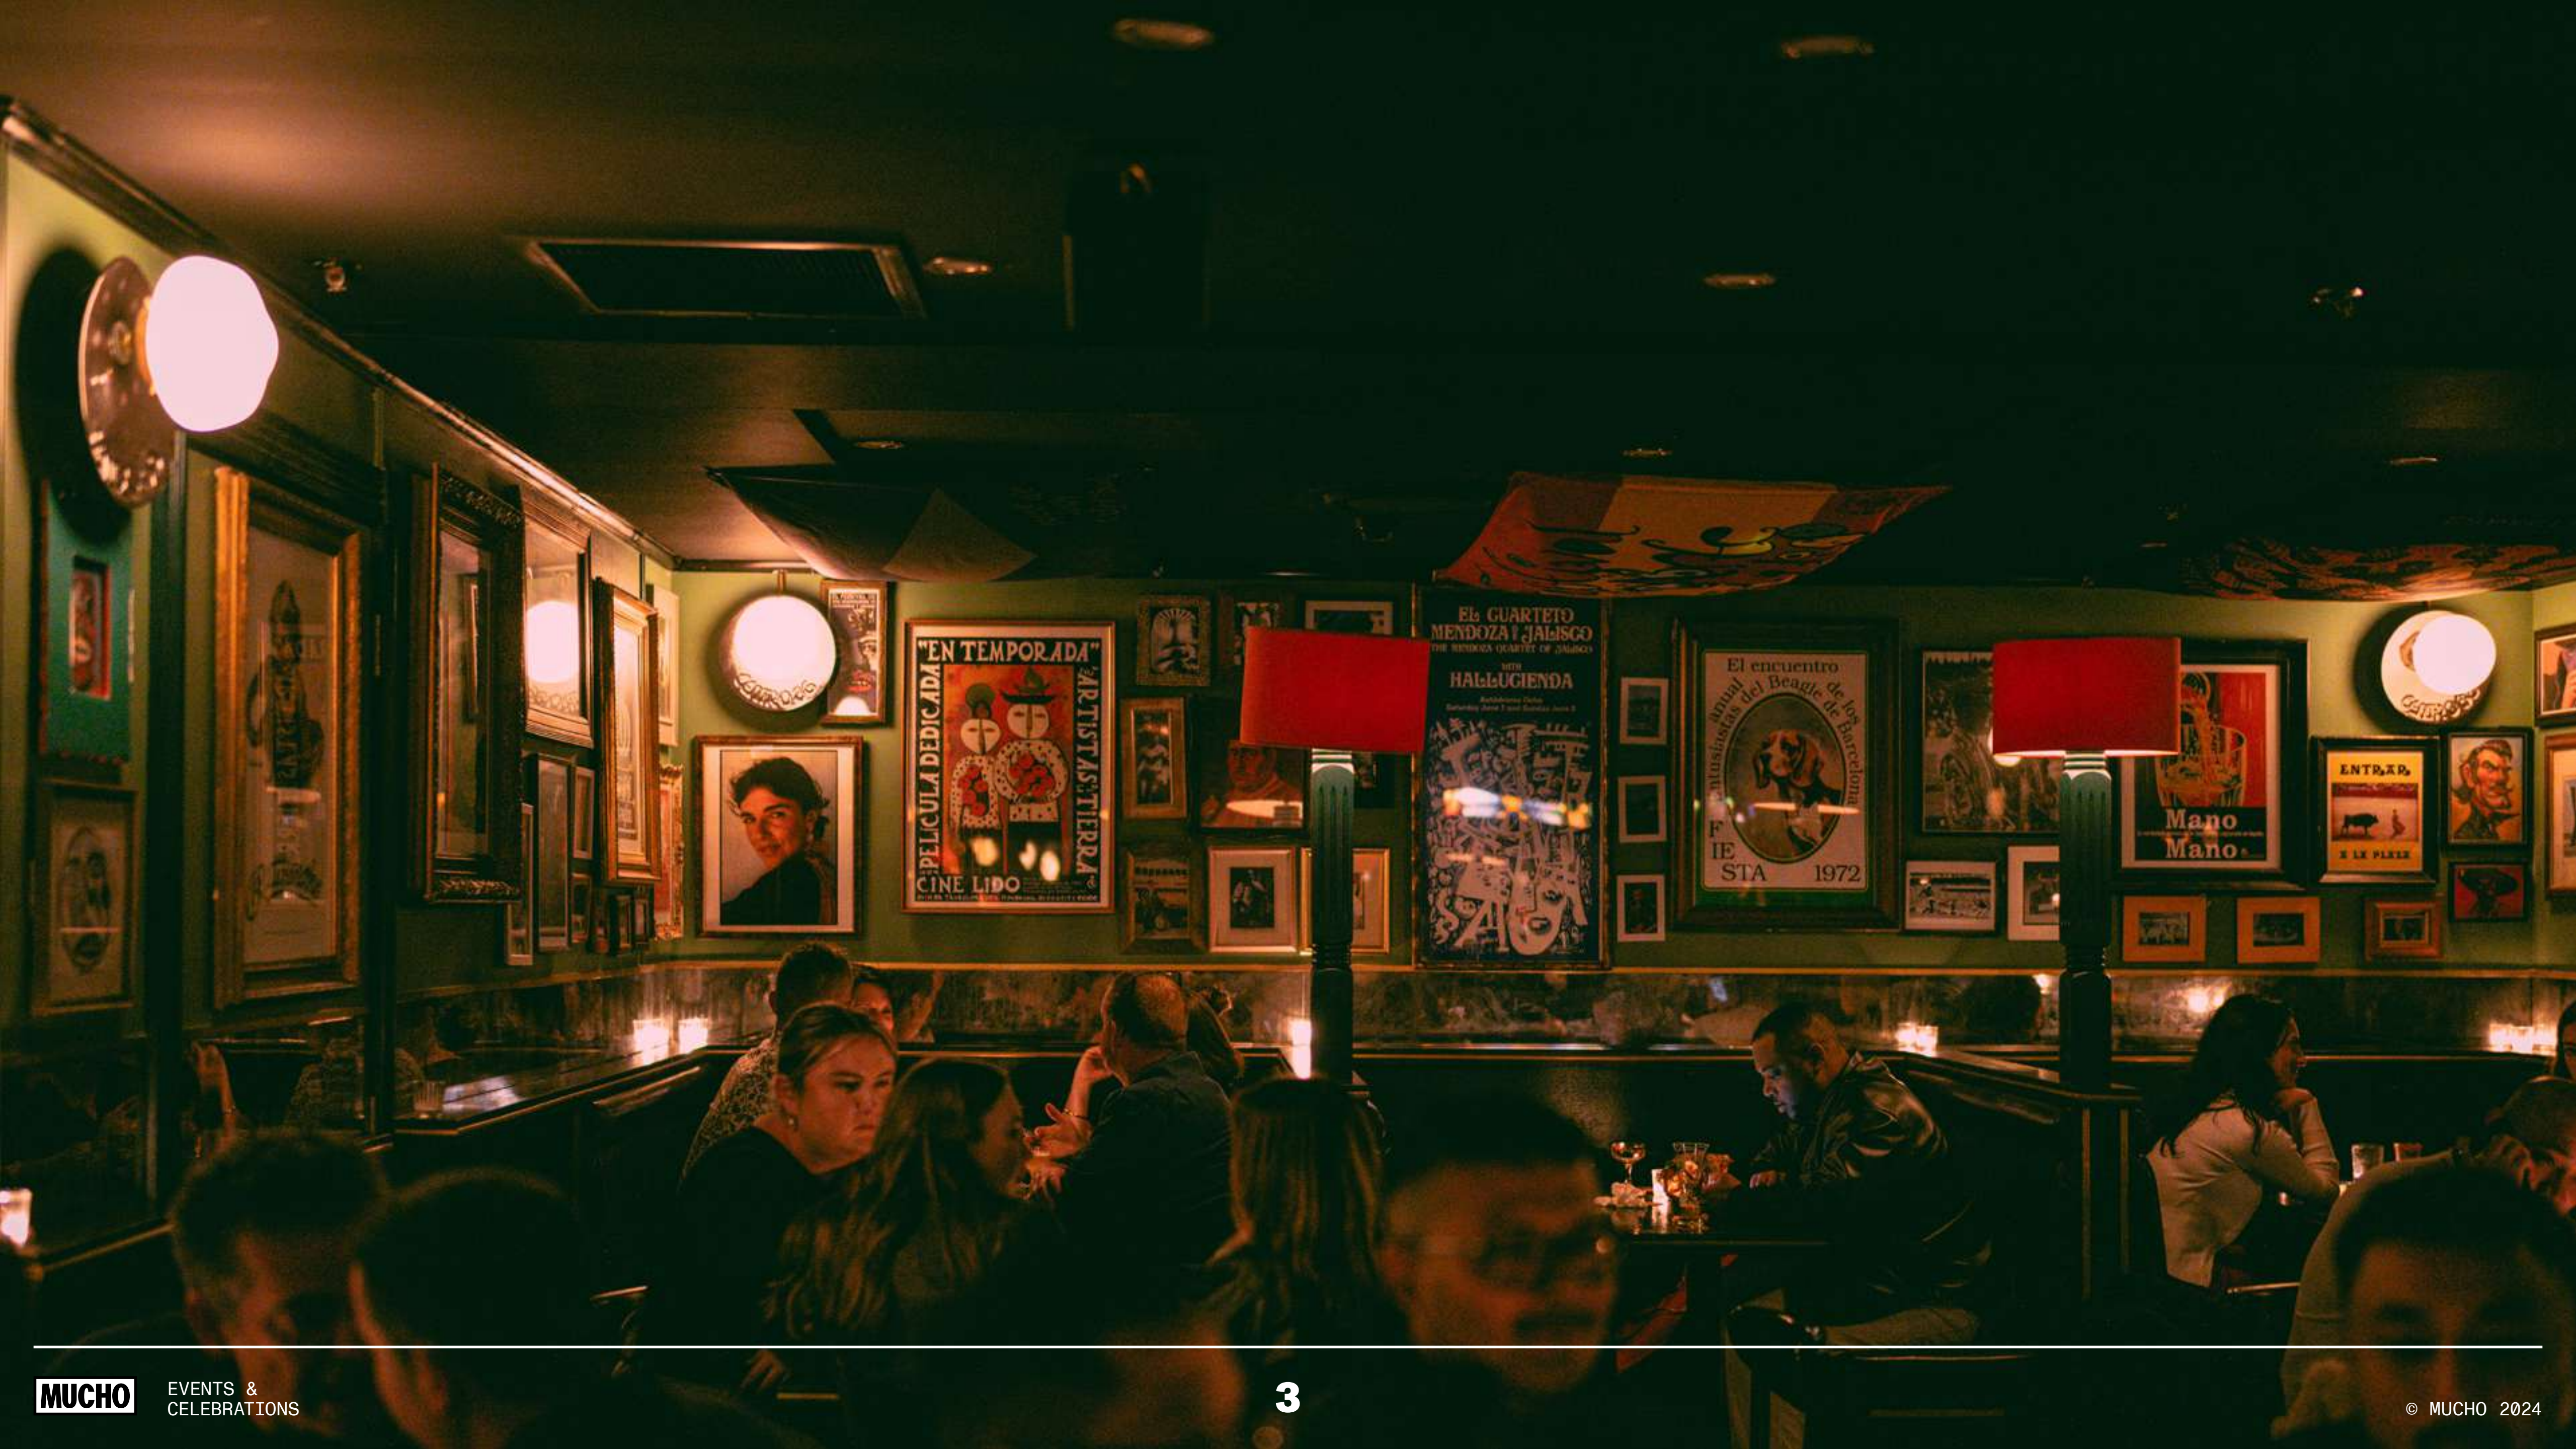

Dreamed into existence in 2008, MUCHO Hospitality Group showcases an industry leading mix of operational and creative capability that focuses on its 5 unique and highly awarded bars – with more on the way.

Founded by two full-time bartenders, and joined by a natural marketer and empathetic leader in 2017, MUCHO's mission has always been to bring creative concepts to life.

We're dedicated to an earnest and inspired future of hospitality. We exist to make fantastic drinks, served incredibly. We remember that bars are for the people. We create memorable things, individual things, things with breadth, and things with depth.

Ever original, we have pushed the envelope with Tio's opening back in 2012, kept Sydney dancing at The Cliff Dive and climbed onto the world stage with Cantina OK!. In more recent years, we've twisted the martini at Bar Planet, and welcomed our most recent addition to the family, Centro 86, an extra-ordinary tequila bar.

Birthday bashes, networking soirees, product launches, high school reunions, panel discussions, after-parties – whatever you're celebrating, we're celebrating with you.

Centro 86.

Basement, 86-88 Pitt Street, Sydney

Like peering through a psychedelic periscope and drinking in an alternate reality, Centro 86 transforms the basement of 86-88 Pitt St into a monument to margaritas and a temple of tequila.

Inspired by the classic cantinas of Mexico and the otherworldly work of Antoni Gaudi, the bar pushes the perception of what a margarita can be. The 100-strong tequila selection is fuelled by trips to the source in Mexico and includes agave spirits from around the world. We've pushed our connections to get our hands on some truly special, rare bottles.

ACCOLADES:

- Tequila Bar of the Year - Australian Bar Awards 2024

Drinks at Centro 86.

Detailed, layered, Latin Cantina Classics filtered through the MUCHO lens. Precision, fresh fruit, fun and chaos. The quality of drinks is focused on ice-cold glasses, the hand pressed lime juice, shaved to order ice, and thoughtful use of a modern Sydney pantry.

Margaritas are the core of what we do. Delicious, weird, sometimes spicy, sometimes frosty margaritas. We push the boundary of what can be possibly be called a marg.

We don't take our ideas too seriously but we are dedicated to the quality of our service and our drinks. Our drinks are hospitality forward, they are understandable, fast, fresh and undeniably delicious.

Drinks at Bar Planet.

We describe Bar Planet drinks as “almost memories”, an attempt to capture the sense that they are familiar but surprising. They reflect things that people have tried, formats that we know work but pushed further!

The Infinite Spirit.

In the whisky world, geeks create their own 'infinity bottles' by emptying the dregs of anything they drink into their own house blend, that constantly changes. The Infinite Spirit is our version, something that iterates slowly, each addition is a seasonal snapshot, a capturing of time and place.

We have now gone through 7 different spirit runs, using 80% before making a new spirit and mixing it through. So every drop still has a tiny bit of the first run we ever did, with 8 types of apple!

Drinks at Cantina OK!

Silly but soulful. International flavours, inspired by the diversity in the city that surrounds it.

The drinks from Cantina OK! are playful and idiosyncratic, they are super delicious and don't take themselves too seriously. Routinely maximalist, often more is better, more lime, more salt, more mezcal, more weird, more yum.
